DOBROMIR HRISTOV

Front-end developer

dobromir92@gmail.com   **+359883390558**

I am a dedicated web developer, with a passion for fast, reliable, cutting edge software, with over 9 years of experience.

As a front-end developer, I have been exposed to many of the rapidly evolving technologies, frameworks, bundlers, preprocessors and UI/UX trends. I adhere to popular coding practices, deliver maintainable, well-engineered products. I implement testing and automation tools for speeding up development and reliability, allowing front-end teams to focus on coding.

I enjoy writing articles, open sourcing code, authoring libraries and teaching people. I lead workshops and speak at conferences about Vue, Testing, App architecture etc.

Vue Bulgaria organizer and speaker.

Experience

Contracting as a Frontend Developer (remote)

Jan 2020 – Present

Apple
Working on various amazing projects, with the tech stack I am best at.

Lead Frontend developer (remote)

Sept 2017 – Jan 2020

Hypefactors, Denmark
Web based software for PR professionals.

Started as a front end developer, solely developing and maintaining their Vue SPA blogging platform - Hype.news, later joined the development of the main Hypefactors product – a complex multilingual Vue.js SPA with routing, shared state, mono repo architecture, unit and e2e testing, and much more.

JS (ES2016+), Vue.js (Vuex/Vue Router/Vue CLI), Bugsnag, Node.js, Pusher, Sass/PostCSS, Jest/Cypress testing

Web Developer

Jan 2016 – Aug 2017

Welldoers, Bulgaria
Web development agency.

I worked as a web developer, mainly responsible for the development of the front-end and partially contributing to the backend. Projects included ecommerce shops of various sizes, portfolios, Facebook Apps, product websites, WordPress and Laravel API driven Apps.

JS (ES2015), Vue.js(Vuex, Vue Router), Sass/Less/PostCss, PHP (Laravel, WordPress)

Web Developer

Apr 2013 – Dec 2015

STSSoft, Bulgaria

Web development agency.

Developed numerous public and private websites on various CMS and custom platforms. Worked both on front-end and back-end.

JS (jQuery), Grunt, Gulp, Brunch, Sass, PHP (Laravel, WordPress)

Education

Technical University Gabrovo - Bachelor's degree
Computer Systems Technology

2011-2015

Open Source Software

Below is a selection of my open-source packages and contributions:

Vue Test Utils

Official testing utilities for Vue 3. [Core contributor]

Swift-DocC-Render

The main renderer for Swift-DocC, a tool for building and previewing documentation, authored in Markdown. [Core member]

Vuelidate 2

Form validation library for Vue.js 3/2 using data driven patterns. [Co-Author]

vue-vimeo-player

A simple to use Vimeo.com player for Vue 2/3

tailwindcss-export-config

Export Tailwindcss config options to SASS, SCSS, LESS, Stylus, CSS and JSON. [Author]

Vue Community Guide

A large guide to the Vue.js community and ecosystem, written and maintained by the community itself. [Project leader and author]

Vuelidate-error-extractor

Easy error message display using Vuelidate (0.x) validator in Vue components [Author]

Along with packages, I have written multiple articles, spoken at conferences and much more.

I have many other open source projects and tutorials that are in the works, from tips targeted at beginners to advanced real world use cases.

See an error? Please make a PR to fix it here: https://github.com/dobromir-
